

SkillSoft Learning Courses – Corporate

**Maximize human capital performance.
Training provides building blocks for success.**

Powerful Partnership

PreVisor, the leader in pre-employment hiring assessments, offers learning solutions by SkillSoft, a leading provider of e-learning and performance support solutions. SkillSoft offers a vast array of learning objects to choose from including a full range of Software Skills.

PreVisor and its wholly owned subsidiaries serve as a global reseller of SkillSoft solutions. These learning solutions are highly scalable to address the needs of the PreVisor customer base, ranging from firms with training/learning needs for only a few employees to those companies with training/learning needs for thousands of employees. This partnership gives clients the power to leverage innovative technology from recognized industry leaders in both assessment and online training.

Proven Track Record

SkillSoft's mission is to maximize business performance by providing learning and performance support solutions that connect corporate strategy and individuals. SkillSoft's solutions are designed to support all levels of the organization and can easily be adapted to meet strategic business initiatives, on-demand information needs and individual job roles.

SkillSoft enables business organizations to maximize business performance through a combination of comprehensive e-learning content, online information resources, flexible learning technologies and support services. SkillSoft's courseware is localized into 18 languages with products and services sold in 65 countries.

The Benefit to You

Content, technology, and services are key components of a successful blended learning program. SkillSoft and PreVisor deliver ever-expanding course content, leverage leading-edge technology and services, allow clients to measure knowledge and apply targeted training through a single application. Now you can focus training resources on relevant work content to more effectively teach job skills and enhance productivity. SkillSoft training makes it easy and cost effective to close the skills gap and maintain a highly effective workforce.

Professional Learning Solution

PreVisor and SkillSoft have identified software titles that we are making available to you through this partnership. You can choose from a comprehensive list of courses to give you an extensive learning program that allows you to present your clients with the most qualified candidates.
